SUBJECT: INTERNATIONAL ORIGIN EXCHANGE

Dear Mr. Shahbazin:

In your letter dated September 27, 2002, you requested approval to exchange the country of origin of natural uranium in the U.S. with an equivalent amount of natural uranium in France. Based on our internal review and consultations with other U.S. Government agencies, it has been determined that your request is acceptable. To accomplish and document the origin exchange, the U.S. facility involved in the exchange must complete and submit DOE/NRC Form-741 to the Nuclear Materials Management and Safeguards System (NMMSS) located in Norcross, Georgia. Questions on the submission of the DOE/NRC Form-741 should be directed to the NMMSS operator at 770-662-8110, extension 110.

Please note that the Russian origin nuclear material in your request may be subject to trade quotas or restrictions. You must address that issue with the Department of Commerce separately.

If you have any further questions, please contact Ms. Patricia Tana (301-415-8105) or Mr. Brian Horn (301-415-8128) of my staff.

Sincerely,

/RA/
